

GLOBE-TRAVELLER FALCON

NEW model

Experience the ultimate in comfort and convenience with the all-new modern camper van.

Welcome to our new model of camper van, the 4x4 Volkswagen Crafter base!

This camper van has been designed with you in mind, featuring high quality materials for maximum comfort and durability. Fully winterised, with a double floor, like all our motorhomes, allows you to enjoy adventures in any weather.

Equipped with two LiFePO4 batteries, totalling 400 Ah in capacity, and 320-watt solar panels it provides reliable power on the go. The Clesana waterless toilet and Dynacook gas ceramic hob allow you to fully enjoy the great outdoors without sacrificing modern conveniences.

Stay connected with the built-in business-class router PEPLINK using the latest technologies such as 5G modem, WiFi AX, 2.5Gbps port and dual SIM connectivity.

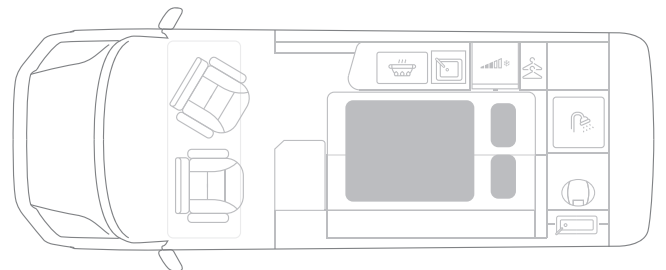

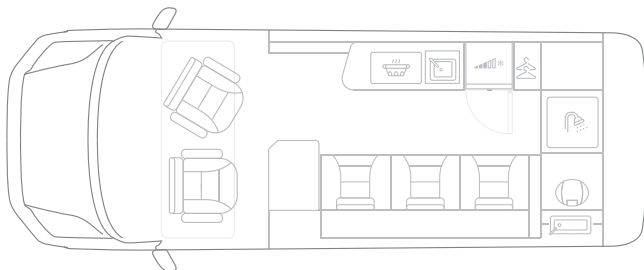

The Globe-Traveller Falcon comes with an inverter as standard and is available in a "gas free" version, making it more environmentally friendly and more compelling for all of you who do not want to have gas installation in the motorhome.

Thank you for considering our camper van!

In serial production from March 2023. Please refer to the price list for details of standard equipment and available options.
